## **BUS ROUTING AND SCHEDULING**

It shall be the policy of the School District of Hartford Joint No. 1 that students will only be transported by school bus to school and to a regular pick up or drop off location.

It is the responsibility of the parent or legal guardian to inform the School District and bus contractor of the regular pick up or drop off point/location.

It shall be the policy of the District that students living within the District's attendance boundaries shall not be transported by school bus from school to a daycare site or babysitter's home outside the District's boundaries. Additionally, students living within the District's boundaries shall not be transported by school bus from a daycare site or babysitter's home outside the District's boundaries to school.

In cases where babysitters fall on existing routes in which no added mileage, impact to ridership limits or change to the route would occur, the District may create exceptions after weighing all options.
