EMPLOYEE ASSISTANCE PROGRAM

The School Board of the School District of Hartford Joint No. 1 recognizes that at times individuals and/or family members may have personal problems that affect an employee's work.

Therefore, the School District will provide a practical and constructive mechanism for assisting employees with personal problems which affect the work situation or to aid employees and family members who voluntarily wish to use such a program as a means of resolving a personal problem, be it alcohol, drugs, or other concerns.

To provide this confidential service, the School Board contracts with an agency on a yearly basis.
